ADVANCED TCM CALIBRATION

Advanced TCM calibration is only available on Gen4 displays and StarFire6000 or newer receivers.

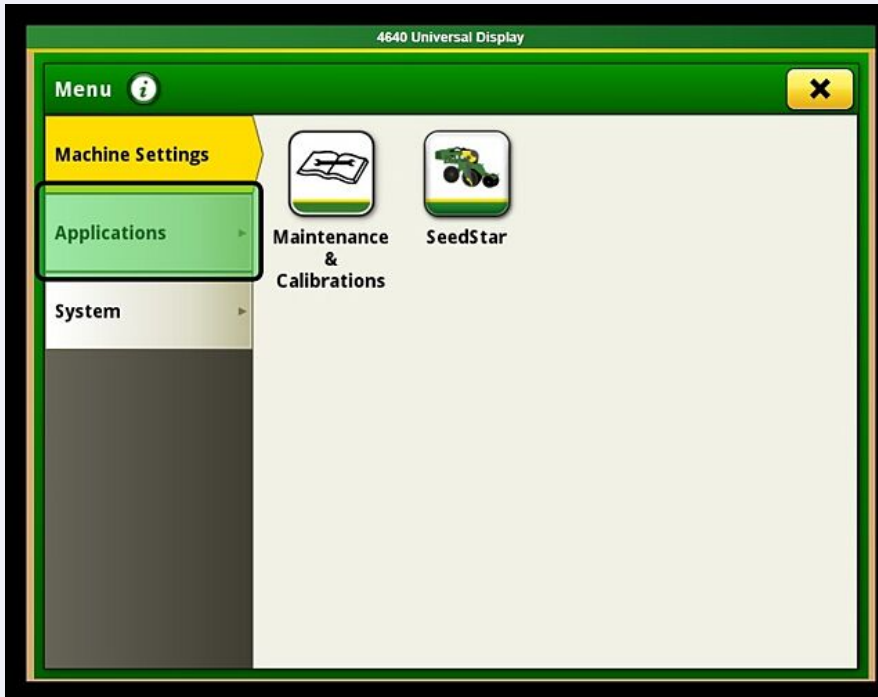

Gen4 - Advanced TCM Calibration

Advanced TCM calibration is only available on Gen4 displays and StarFire6000 or newer receivers. It requires 165 feet of straight tracking and approximately 330 ft of open area.

- 1 Select "Menu" in the bottom right of the display.

2 Select "Applications"

3 Select "Starfire"

4 Select "Advanced TCM Calibration"

5 Begin the calibration and follow the on screen instructions
