TURFTEAM

Residential & Commercial Support Plans

MIDWEST
MACHINERY CO

Scheduled Preventative Maintenance

We've created our TURF Team Preventive Maintenance Program to ensure your equipment is inspected and serviced well before the busy spring season, allowing you to tackle that spring to-do list without waiting on your equipment to be serviced.

Why TURF Team?

Wait times to have your equipment serviced for spring maintenance can be extensive - sometimes adding weeks of unplanned downtime due to the seasonal nature of our business.

Midwest Machinery's TURF Team Preventive Maintenance Program ensures your equipment is inspected and serviced by a John Deere-trained technician. This allows you to bypass long spring service wait times and gives you peace of mind that your equipment is ready to work when you need it most.

Visit mmcjd.com/turf-team for more information.

COMPACT UTILITY TRACTORS

\$375 for 1-4 Series CUTs

PARTS AND LABOR INCLUDED
